**AWARDS SUBMISSION
DEADLINE, JULY 1, 2024**

GUIDANCE NOTES

Companies are invited to put themselves or their products forward for the awards. It is not necessary to get a nomination from an external company or individual. Companies can submit entries for more than one award.

Judging will be based on the nomination information provided, and on the industry knowledge and experiences of the judges. Judges will look at the nominations received for each category and rank them accordingly. The quality and comprehensiveness of the nomination information received is of critical importance.

You can also submit an entry on behalf of another company (for example, in the 'best distributor' or 'product applications of the year').

Suppliers are encouraged to nominate OEMs and OEMs can nominate suppliers.

Please submit a separate entry form for each category you are entering.

When you submit your award entries, please supply two relevant digital photos for possible use in Power Progress publications.

Please also include a company logo, JPEG, PNG or EPS format.

The awards are judged on activities predominantly undertaken in 2023 and the first half of 2024. The judging criteria can be found at the awards website: <https://powerprogresssummit.com/awards>

Entries and supporting materials can be submitted by e-mail, maximum size of 10 MB or via WeTransfer. Email to becky.schultz@khl.com

The judges will meet in July 2024, after which the list of shortlisted companies will be announced at www.powerprogresssummit.com and www.powerprogress.com

The winners will be announced at the Power Progress Summit on October 1, 2024.

AWARD ENTRY SUBMISSION

1) Please provide below a 150-word summary statement explaining why your company or product should win this award. This should state clearly to the judges what you consider to be the key points in your submission.

AWARD ENTRY SUBMISSION

2) Please provide supporting information below (up to a maximum of 1200 words) explaining in more detail why you should be considered for the award. Important note: the awards are for activities predominantly undertaken during 2023 and early 2024 (Write in the space below.) Please be as comprehensive as possible in explaining the merits of the nominated company or technology.

In addition to the above information, you can provide supporting material (photos, brochures, links to video etc.) up to 10 MB in size.

Please supply a company logo with your entry
